

Łukasz Łyskawa

I am an engineer specialized in mobile systems and applications.

I have gained my first serious teamwork experience while doing an internship at Whalla Labs, creating a Windows Phone version of an Android application called „Magic Square Rush”.

Currently I am looking for a job as a Junior Developer

C# is my preferred language, however I have also tackled other C-family languages including C, C++ and Java.

While developing my engineering degree project, I have worked in a four-person team using Scrum framework. We have created a patient queueing & servicing system consisting of two WPF applications for doctors and reception, an ASP.NET MVC website dedicated for patients, a database, RESTful Web Api and a WCF Web Service.

Internships

Whalla Labs Sp. z o.o.

07.2015

Windows Phone, C#

IBM Poland Sp. z o.o.

02.2014

Educational internship using Multipurpose Cloud Center (mc2)

Education

Collegium Da Vinci

2012-2016

Computer science – Mobile systems & applications, computer games

Zespół Szkół Ekonomicznych im. C. Ratajskiego w Śremie

2007-2011

IT technician – Multimedia & computer graphics

Certificates

MTA-40361 Software Development Fundamentals

2015

ITA-105 Object-Oriented Programming

2013

Interests

C# (WPF, WinForms, Windows Phone), Java (Android)

Architectural patterns (MVVM, MVP)
